## OKI Robot Cable Series

### Small-diameter, highly bendable robot cable ORP slim cable series

UL 758 Style 2464 80°C 300 V

Fixed	Torsion
Swinging bending	Sliding bending

Designed as a small-diameter model of the ORP cable series.  
Our unique special elastomer is used to insulate the core wire.  
Suitable for all robot moving parts.

#### Features

- About 20% flatter than ORP cables.
- Available in a wide range of types (sliding, swinging, and twisting) for all robot movements.
- Excellent flexibility, which makes routing easier.
- Quick delivery available for your desired volume starting from 10 m (1 m units).
